

Intertek

1. **ATEX CATEGORY 2 NON-ELECTRICAL CERTIFICATE**

2. **Equipment or Protective System Intended for use in a Potentially Explosive Atmospheres Directive 94/9/EC**

3. Certificate Number: **ITS10ATEX17036**

4. Equipment or Protective System: **Lanyards**

5. Manufacturer: **Capital Safety**

6. Address: **3833 Sala Way, Red Wing, USA, MN 55066-5005.**

7. This equipment or protective system and any acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

8. Intertek Testing and Certification Limited certifies that this equipment or protective system has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment and protective systems intended for use in potentially explosive atmospheres given in Annex II to the Directive 94/9/EC of 23 March 1994

The examination and test results are recorded in confidential Report INT-CH3191/D/1 (10 046976) dated 20<sup>th</sup> May 2010 and Capital Safety Technical File 070803.

Intertek accepts no responsibility for the accuracy or completeness of declarations made by the user as detailed in the above report, on which aspects of the evaluation may be based.

9. Compliance with the Essential Health and Safety Requirements has been assured by compliance with: EN1127-1:2007, EN13463-1:2009, EN13463-5:2003 except in respect of those requirements referred to at item 18 of the Schedule.

10. If the sign "X" is placed after the certificate number, it indicates that the equipment or protective system is subject to special conditions for safe use specified in the schedule to this certificate.

11. This Non-Electrical Certificate relates only to the specific equipment or protective system.

12. The marking of the equipment or protective system shall include the following:-

CE  II 2 G c T3

13. SCHEDULE

14. CERTIFICATE NUMBER: ITS10ATEX17036

15. Description of Equipment or Protective System

This group contains products that act to tether, restrain, or support a user by connection between the user's body harness and an anchorage or anchorage connector. Some lanyards may also connect between the user and another PPE component such as a fall arrester on a vertical lifeline. Some lanyards are simple straps and others include an energy absorbing design or section that is designed to control fall arrest forces. Range includes Arc Flash: Shock absorbing lanyards, Ez-Stop II: Shock absorbing lanyards, WrapBax 2: Shock absorbing lanyards and Work positioning spreader bar lanyard.

16. Report Number:

Intertek Report Ref Issue INT-CH3191/D/1 (10 046976)

17. Special Conditions for Safe Use

There are no special conditions for safe use

18. Essential Health and Safety Requirements (EHSR'S)

The relevant EHSRs that have not been addressed by the standards listed in this certificate have been identified and assessed in Intertek Report INT-CH3191/D/1 (10 046976) Lanyards dated 20<sup>th</sup> May 2010.

19. Marking

The equipment must be marked with the following

- a. name and address of the manufacturer;
- b. manufacturers type identification;
- c. year in which the equipment was manufactured;
- d. coding as per section 12 of this document;
- e. a serial number;
